How to install

Install ready-to-paste package

- Download the latest version at
  https://store.mageplaza.com/my-downloadable-products.html
- Installation guide: https://www.mageplaza.com/install-magento-2-extension/

How to upgrade

Backup

1. Backup your Magento code, database before upgrading.
2. Remove QuickOrder folder
3. In case of customization, you should backup the customized files and modify in newer version.
4. Now you remove app/code/Mageplaza/QuickOrder folder. In this step, you can copy override QuickOrder folder but this may cause of compilation issue. That why you should remove it.
5. Upload new version
6. Upload this package to Magento root directory
7. Run command line:

   ```
   php bin/magento setup:upgrade

   php bin/magento setup:static-content:deploy
   ```
